Product Overview

Clinics On Cloud is a self-contained health screening kiosk that combines point-of-care diagnostic devices, intelligent software, and video consultation in one integrated unit. It is designed to deliver rapid primary health screening, instant reports, and connected care in settings where infrastructure and specialist access may be limited.

65+
approved tests

Key Features & Capabilities

Designed for a fast, digital, and guided screening experience.

Your Health Matters

Patient Check-in Automation

ID auto capture, returning patient recognition, QR patient ID, and digital consent forms.

Built-in Teleconsultation

Live video with a doctor, doctor dashboard access, and connected follow-up support.

Digital Health Records

Cloud-based storage, health history intake, and real-time dashboards.

Instant Report Printing

Health reports, vitals summary, and receipts printed on the spot.

Multilingual Interface

Supports multiple regional languages for easier patient use.

Compact & Easy to Deploy

Minimal staff training needed, suitable for primary care centres and community desks.

Healthier Communities

Greater Access

Happier Patients

Smarter Decisions

Operational Strengths

Built for connected care, population health visibility, and efficient deployment.

Your Health Matters Everywhere

1 Connectivity & Power

Runs on 4G or Wi-Fi with cloud backup, solar compatible, UPS ready for low-infrastructure sites.

4G / Wi-Fi Connectivity

Cloud Backup

Solar Compatible

UPS Ready for Remote Sites

2 Data Analytics Dashboard

Population-level health data filterable by location, date, gender, age group, and individual health parameters.

3 Personalised Meal Planning

AI-generated Indian meal plan based on test results and preferences, shared over WhatsApp and email.

- Personalised to health profile
- Indian meals and local preferences
- Shared via WhatsApp and email
- Supports long-term wellness

4 Deployment Friendly

Compact footprint, easy operation, suitable for layman staff and assisted workflows.

- Compact & space-saving design
- Simple & guided operation
- Suitable for non-medical staff
- Assisted workflows & support

5 Ideal Deployment Settings

Designed to make quality diagnostics and preventive care accessible across communities and organisations.

Primary Health Centres

Corporate Wellness Programmes

Residential Societies

Community Screening Drives

CSR and Insurance-linked Initiatives

Clinics On Cloud

Health Screening Report

Know Today, Healthier Tomorrow.

Your Health
Brighter Tomorrow

Patient Name : Sample Patient
Age / Gender : 35 Years / Male
Date & Time : 15 Mar 2025, 10:24 AM
Location : Clinics On Cloud - Community Centre

Overall Health Score

85
/100

Good Health
Keep up the good work!

Parameter	Result	Normal Range	Status
 Blood Pressure	118 / 76 mmHg	90 - 120 / 60 - 80	Normal
 Blood Sugar (Random)	92 mg/dL	70 - 140	Normal
 Heart Rate	72 bpm	60 - 100	Normal
 SpO2 (Oxygen)	98%	95 - 100	Normal
 BMI (Body Mass Index)	24.1 kg/m ²	18.5 - 24.9	Normal
 Body Temperature	98.4 °F	97.0 - 99.5	Normal

What your results mean
 Your vital signs are within normal ranges. This indicates good overall health. Maintain a balanced diet, regular exercise and periodic health check-ups to stay healthy.

This is an automated report generated by Clinics On Cloud.
For medical advice, please consult a qualified doctor.
